

North Midlands Operations – Job Specification

Job Title: Electrician
Reporting to: Maintenance Chargehand
Salary: Competitive, plus benefits
Location of Role: Wolverhampton, West Midlands, WV1 1QB

Job Purpose:

To contribute to the preventative maintenance and defect rectification on all plant and equipment. To provide an electrical fitting service throughout the plant and to assist in other disciplines. Implement a culture of continuous improvement.

Role & Key Responsibilities

- Carry out planned maintenance activities in accordance with the maintenance schedule and report any irregularities.
- Work under the supervision of the Maintenance Manager and maintenance charge hand.
- In the absence of the Maintenance Chargehand and the Maintenance Manager, liaise with the Operations department each morning, review the overnight log entries, and prioritise work as required.
- In the absence of the Maintenance Chargehand and the Maintenance Manager, ensure all work either planned or reactive is safely assessed before work commences and safety standards are maintained throughout.
- Maintain and test all LV electrical systems.
- Assist in the Implementation and monitoring of a preventative maintenance schedule.
- Assist in completing the scheduled operations programme for proving plant securities and equipment changeover routines, while ensuring tests are carried out and successful results recorded on Altair or job sheet.
- Effectively react to changes in circumstances and unplanned emergencies in relation to Plant and equipment in a safe and efficient manner. Overtime working may be requested.
- Assist other operation and maintenance personnel as required.
- Assist, prepare, and liaise with contractors as the need arises.
- Assist in the preparation of the planned outage using excel template, Altair or any other support provided.
- Report any jobs and finding on Altair, and report to the plant manager any emergency job.
- Use of workshop tools, hand tools, power hand tools, lifting equipment, etc.
- Carry out minor welding repairs when required.
- At all times carry communication devices and two-way radios to facilitate immediate response to emergencies.
- Ensure plant cleaning schedules are fulfilled to a satisfactory standard.
- Source, order, and purchase spare parts within allocated budget limits.
- Report when stock levels are at re-order level for all items of spares and consumables.
- The jobholder will also be required to carry out other ad hoc duties that are necessary.

Health & Safety

- Demonstrate safe working practices in line with the Company's Health and Safety procedures/policy and all Company policies.
- Active involvement in fire drills and evacuation exercises.
- Reporting to the relevant levels of management any contravention of statutory and MESE Safe working practices, this includes reporting accidents and incidents.
- Work within the requirements of the Company's Permit to Work (PTW) system. Highlight any necessary changes required within Plant Operating Instructions (POI's), and Risk Assessments.
- Build and maintain strong working relationships with all departments.

- The above duties are not exhaustive. The job holder will also be required to carry out other ad hoc duties that are necessary.

Competencies / Qualifications / Experience / Skills:

- City and Guilds 236(0), part 1&2/ an NVQ level 3, or equivalent Electrical engineering recognised apprenticeship C&G 5357.
- Practical experience of electrical work ideally including small power and lights, control wiring to PLC/DCS systems, motors over 15kVA (including testing), circuit and cable tracing, working at heights, and fault finding.
- Attention to detail with the ability to effectively interpret data.
- Basic IT skills, primarily in Microsoft Word and Excel.
- Ability to work on own initiative.
- Ability to read technical drawings.

Additional competencies desirable:

- 18th edition wiring regulations
- IOSH working safely
- Confined space awareness
- Forklift truck and MEWP license
- Abrasive wheels
- Pendant crane operation
- Rigging & slinging HV operational safety or similar is desirable but not essential

Application details

Please send a cover email and CV to the Group HR department:
